

# How to Load Songs to an External USB Flash Drive for CAVS JB-99 RS Karaoke System

20220211  
CAVS USA Inc.  
V 1.0.0.1

To play songs of your own through the JB-99 RS Karaoke System, it requires you to load the songs of your own onto an external USB flash drive.

To load the song files, you need to use the MCG Manager program which you can download from the link below.

- [MCG Manager V20018](#)

After installing the MCG Manager, follow the video instructions below to load the song files onto an external USB flash drive.

The most commonly found song files online are MP4. Here is the instruction to load the MP4 song files onto an external USB flash drive.
